

Do you understand what the word Ethos Means?

Ethos is about what is important to all in our school community -, **the spirit of our school.**

- It is about our motto, “Rath as Saothar,-Success through Effort”
- It is what makes us different from other schools.
- It is about our core values which are Care, Respect, Community, Equality and Excellence in education.

Our major focus this year was that students would understand what the word means and so choose this as the front cover of our journal
